SUBJECT: NOTICE OF STREET REALIGNMENT CONSTRUCTION – CARLOS BEE BOULEVARD FROM 450 FEET EAST OF MISSION BOULEVARD TO OVERLOOK AVENUE

Dear Resident/Property Owner/Business Owner:

The Hayward City Council has recently awarded the construction of Carlos Bee Boulevard Realignment Project to Top Grade Construction, Inc. of Livermore. Work is scheduled to begin on August 19, 2010 and will last approximately four to five months.

This project will improve the road curvature and add a median to mitigate current unsafe conditions. Additionally, construction will involve the installation of new curb, gutter and four foot wide sidewalk on the north side, placement of new pavement, and installation of new storm drain inlets on the south side.

The construction of this project will be done in four phases so that traffic through Carlos Bee Boulevard will be maintained throughout the project duration (see reverse side). During construction, traffic will be limited to one lane in each direction. Traffic will be separated by barriers and/or channelizers to protect both the travelling public and the construction workers.

While this work may cause delays to your travels during construction, Carlos Bee Boulevard will be a safer road upon completion of the realignment project. We appreciate your patience and cooperation during the construction period. If you have any questions, please call Dave Hung, Project Manager, at (510) 583-4752 or Paulo Pulu, Construction Inspector, at (510) 583-4753.

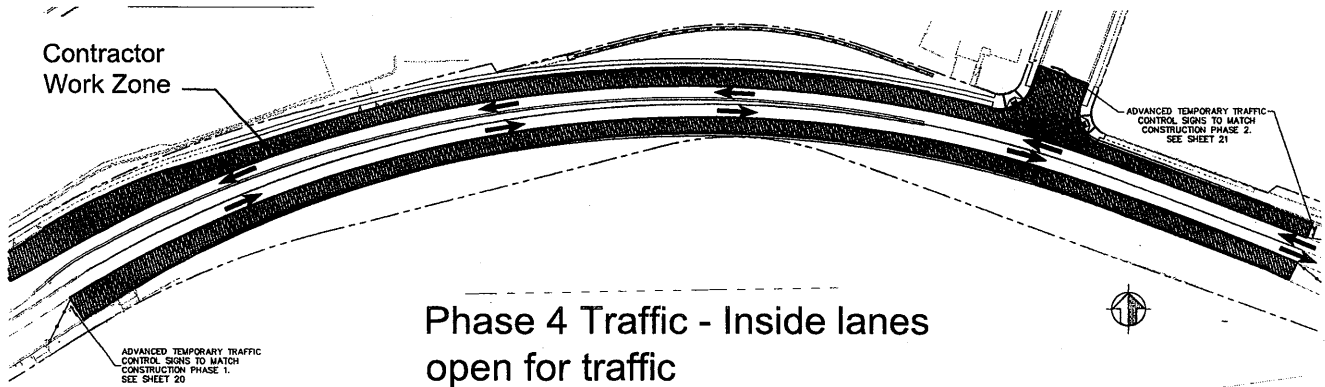

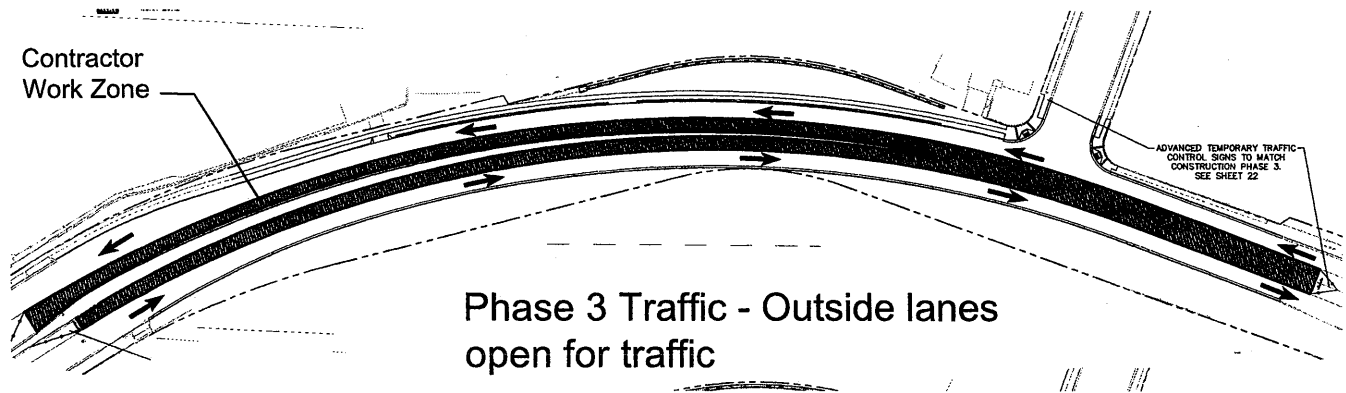

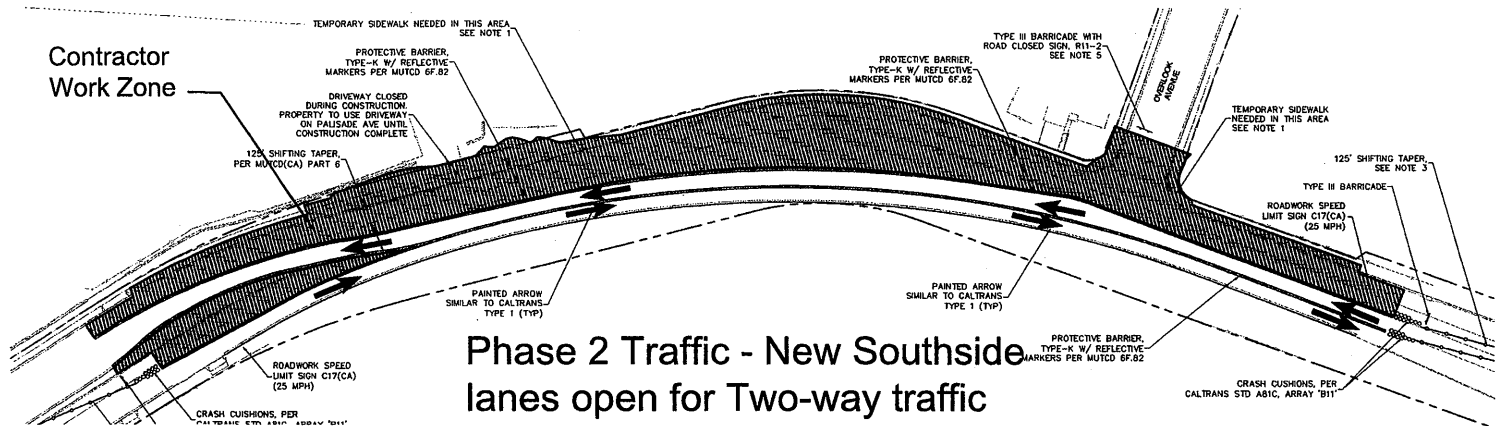

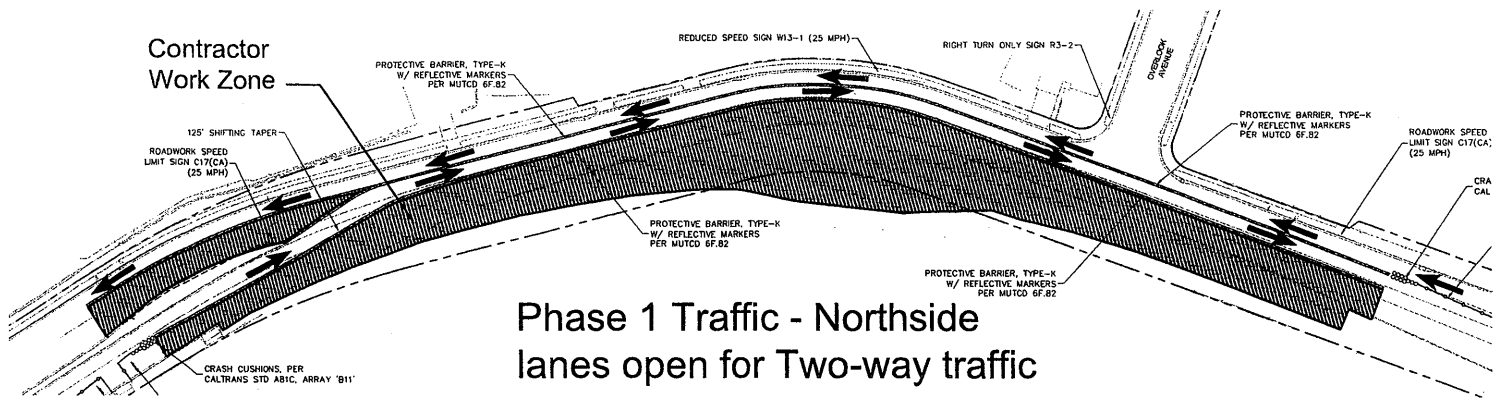

Very truly yours,

Morad Fakhraei
Deputy Director of Public Works
